RE: HRTAC

Name: Mr. Frank Papcin
Date: July 15, 2015
Subject: HRTAC Chair Nomination

Public Comment Input (Via E-Mail)

I don't normally do this -- send out emails to members if HRTAC but unfortunately, I find myself put into the position that I must I attended (sic) the nomination meeting where I say (sic) mayor Fraim , from Norfolk, take over the meeting with not only the nomination of his friend mayor Sessoms, but the shutting down of any comments by anyone, about anything--after one of the members , asked to keep those in charge there until after their term expired without comment, or response to that request . After shutting down all comments, he demanded a vote to approve his nomination -- note it was not his meeting to demand anything--but he did .There was no discussion about anything or anyone, only his demands .

Second thing to be noted--the vote is to be before any public input, not the normal format. He doesn't want any public comments before the vote, because he fears the comments that might be made. What am I asking? For you to think about the best interest of the people you serve, not to allow the voting before any public comments that you think for yourself thank you for your time.
