DIRECTORY OF PRINCIPAL OFFICIALS

Voting Members

Donnie R. Tuck, Chair, City of Hampton
Dr. Richard W. “Rick” West, Vice Chair, City of Chesapeake

Kenneth C. Alexander, City of Norfolk
Christopher D. Cornwell, Sr., Southampton County
Robert M. Dyer, City of Virginia Beach
Michael J. Hipple, James City County
Gordon C. Helsel, City of Poquoson
Clinton L. Jenkins, Virginia House of Delegates
Alex Q. Askew, Virginia House of Delegates
L. Louise Lucas, Virginia Senate
Montgomery “Monty” Mason, Virginia Senate
William M. McCarty, Isle of Wight County
Michael P. Mullin, Virginia House of Delegates
Douglas G. Pons, City of Williamsburg
Dr. McKinley L. Price, City of Newport News
Frank M. Rabil, City of Franklin
Shannon E. Glover, City of Portsmouth
Thomas G. Shepperd, York County
Michael D. Duman, City of Suffolk

Non-Voting Members

Stephen Brich, Commissioner of Highways, VDOT
Jennifer Mitchell, Director of VDRPT
Frederick T. Stant, III, Member, Commonwealth Transportation Board
Stephen A. Edwards, Executive Director, Virginia Port Authority

Commission Staff

Kevin B. Page, Executive Director
Jennifer D. Hodnett, Executive Assistant
Lynn Coen, Accounting Manager

Support Staff

Sheila Wilson, Chief Financial Officer
Danetta M. Jankosky, Senior Accounting Manager
Tiffany Smith, Accounting Manager

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Honorable Commission Board Members
Hampton Roads Transportation Accountability Commission

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Hampton Roads Transportation Accountability Commission (Commission), a component unit of the Commonwealth of Virginia, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Commission's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Commission, as of June 30, 2021, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis and the required supplementary information on pages 4-9 and pages 48-51, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The accompanying schedules listed in the table of contents as supplementary information and introductory section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2021 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis of Hampton Roads Transportation Accountability Commission's (the Commission) financial performance provides an overview of the Commission's financial activities for the fiscal year ended June 30, 2021.

The Commission is a political subdivision of the Commonwealth of Virginia, created April 3, 2014 by the Hampton Roads Transportation Accountability Commission Act, Title 15.2, of the *Code of Virginia* (HB1253 & SB513) and became effective July 1, 2014. The Commission's primary function is determining how the Hampton Roads Transportation Fund (HRTF) (HB2313 of the 2013 Acts of Assembly) regional Sales and Use Tax and Fuel Tax monies will be invested in new construction projects on new or existing highways, bridges, and tunnels in the localities comprising Planning District 23. The Hampton Roads Regional Transit Fund (HRRTF) (HB 1726 and SB 1038 of the 2020 Acts of Assembly) Regional Transportation District Transient Occupancy Tax, Regional Transportation Improvement Fee (Grantors Tax), and \$20 million of Statewide Recordation Tax Revenues will be invested in core connected transit network. The HRTF function includes an improvement program development with priority to those projects that are expected to provide the greatest impact on reducing congestion for the greatest number of citizens residing within Planning District 23. The HRRTF function includes the supporting member jurisdictions (currently the cities of Virginia Beach, Chesapeake, Norfolk, Portsmouth, Newport News, and Hampton) subject to the taxes imposed pursuant to Section 58.1-802.4 of the *Virginia Code* and Section 58.1-1743 of the *Virginia Code* approving projects to the development, maintenance, improvement, and operation of a core and connected regional network of transit routes and related infrastructure, rolling stock, and support facilities, to include the operation of a regional system of interjurisdictional, high-frequency bus service, in a transportation district in Hampton Roads created pursuant to § 33.2-1903 as included in the strategic plans and regional transit planning process developed pursuant to § 33.2-286.

The Commission member jurisdictions are the counties of Isle of Wight, James City, Southampton, and York and the cities of Chesapeake, Franklin, Hampton, Newport News, Norfolk, Poquoson, Portsmouth, Suffolk, Virginia Beach, and Williamsburg. The Commission has 23 members as follows: the chief elected official of each of the ten cities and a current elected official of each of the four counties that are members of the Commission; and, five members of the General Assembly (two senators and three delegates). The counties embraced by the Commission must appoint by resolution a current member from its governing body to serve as its member on the Commission. In addition, there are four non-voting ex-officio members, one each from the Virginia Department of Rail and Public Transportation, the Commonwealth Transportation Board, the Virginia Department of Transportation, and the Virginia Port Authority.

FINANCIAL HIGHLIGHTS

Highlights for Government-wide Financial Statements

The government-wide financial statements report information about the Commission's reporting entity as a whole using the economic resources measurement focus and accrual basis of accounting.

- Liabilities and deferred inflows of resources of the Commission exceeded its assets and deferred outflows of resources for the year ended June 30, 2021 by a deficit of **\$281,346,522** (net position).
- For the fiscal year ended June 30, 2021, regional tax revenues for the Commission's governmental activities totaled **\$256.6** million with an additional **\$3.7** million in investment income. Expenses totaled **\$919.4** million; **\$867.5** million represents project funding in accordance with HB2313, **\$.6** million represents transit project funding in accordance with HB1726, and **\$51.4** million represents reimbursement of authorized administrative costs, most of which was interest expense on bond proceeds (**\$46.4** million).

Highlights for Fund Financial Statements

The fund financial statements provide detailed information about the Commission's funds using the current financial resources measurement focus and modified accrual basis of accounting.

- The Commission's Capital Project Fund, established in the fiscal year 2018, reported a decrease in fund balance of **\$195,157,531** for a fund balance of **\$338,645,753** as of June 30, 2021.
- The Commission's Special Revenue Fund (HRTF), established in fiscal year 2016, reported an increase in fund balance of **\$232,596,651** for a fund balance of **\$1,099,888,467** as of June 30, 2021.
- The Commission's Special Revenue Fund (HRRTF), established in fiscal year 2021, had a fund balance of \$28,324,212 as of June 30, 2021.
- The Commission's Debt Service Fund, established in fiscal year 2019, has a fund balance of **\$2,374** due to interest earned during the last six months of the fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis provided here is intended to serve as an introduction to the Commission's basic financial statements. The Commission's basic financial statements consist of three components: government-wide financial statements, fund financial statements, and the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

The financial statements presented include all of the activities which are part of the Commission reporting entity using the integrated approach as prescribed by the Governmental Accounting Standards Board (GASB). The government-wide financial statements present the financial picture of the Commission's governmental activities from the economic resources measurement focus using the accrual basis of accounting.

The fund financial statements include a separate column for each of the major governmental funds. The governmental funds are prepared using the current financial resources measurement focus and modified accrual basis of accounting. A reconciliation of the fund financial statements to the government-wide financial statements is provided to explain the differences created by the integrated approach.

Government-Wide Financial Statements

The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities, with the governmental activities combined. The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the Commission with the difference reported as net position. The Statement of Activities shows in broad terms changes to net position during the fiscal year.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or declining. Net position is one way to measure financial position but the reader should also consider other indicators, such as general economic conditions.

The Statement of Activities presents information indicating how the Commission's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will result in cash flows in future fiscal periods.

General revenue consists of investment earnings used to cover the Commission's administrative expenses, and Special revenues include the following intergovernmental revenues: sales and use tax and fuel tax collected on behalf of the HRTF, and regional transient occupancy tax, regional grantors tax, and statewide recordation tax collected on behalf of the HRRTF and remitted from the Commonwealth of Virginia. These tax receipts commenced July 1, 2013 (HRTF) and July 1, 2020 (HRRTF).

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources which have been segregated for specific activities or objectives. The Commission, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Commission only reports governmental funds. The Commission does not operate proprietary funds nor does it maintain fiduciary funds at this time. The governmental funds of the Commission are presented using four fund types: General Fund, Special Revenue Fund, Capital Project Fund, and Debt Service Fund.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of government funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures and Change in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

As mentioned above, the Commission maintains four governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances for each of these funds. The General Fund includes the Commission's operating activities including the cost of the Commission's three member staff. The Special Revenue Funds report revenue received by the Commission and used to fund prioritized projects on new or existing highways, bridges and tunnels in the localities comprising Planning District 23 (HRTF) as well as revenues used to fund the improvement of transit routes, supporting facilities, and bus service (HRRTF). The Capital Project Fund reports interest earned on unexpended bond proceeds, cost of bond issuance, and project cost distributions. The Debt Service Fund reports interest earned on funds set aside to pay bond interest, and interest expense, which is paid December 31 and June 30 of each fiscal year.

The Commission adopts an annual appropriated budget for its General Fund. An internal budgetary comparison statement is maintained for the General Fund to demonstrate compliance with this budget.

Notes to the Basic Financial Statements

The notes to the financial statements provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

The Required Supplementary Information provides additional information that is required by accounting principles generally accepted in the United States to be presented as a supplement to the basic financial statements.

Supplementary Information

Additional information is presented as a supplement to the basic financial statements. Although not required to be presented and not part of the basic financial statements, the schedules are included to provide additional information of interest to certain financial statement users.

FINANCIAL ANALYSIS OF THE REPORTING ENTITY'S FUNDS

Statement of Net Position

The following table presents a summary of the Statement of Net Position for the Commission as of June 30, 2021. Data for June 30, 2020 has been included for comparison purposes.

Summary of Net Position June 30, 2021 and 2020

	Governmental Activities	
	2021	2020
Assets and Deferred Outflows of Resources:		
Current and other assets	\$ 1,635,264,779	\$ 1,478,437,913
Deferred outflows of resources	65,310	73,369
Total assets and deferred outflows of resources	1,635,330,089	1,478,511,282
Liabilities:		
Current and other liabilities	1,916,659,413	1,100,708,854
Deferred inflows of resources	17,198	15,843
Total liabilities	1,916,676,611	1,100,724,697
Net Position:		
Net investment in capital assets	-	2,680
Restricted	(281,367,948)	377,841,682
Unrestricted	21,426	(57,777)
Total net position	\$ (281,346,522)	\$ 377,786,585

As noted earlier, net position may serve as a useful indicator of a government's financial position. In the case of the Commission, liabilities and deferred inflows of resources exceeded assets and deferred outflows by \$281,346,522 at June 30, 2021 and mostly represents resources subject to external restriction.

Current assets consist primarily of amounts due from the Commonwealth of Virginia, cash and cash equivalents, and restricted cash and cash equivalents. As of June 30, 2021, approximately \$50.7 million was due from the Commonwealth of Virginia, which is restricted for prioritized projects on new or existing highways, bridges, and tunnels in the localities comprising Planning District 23, as well as transit projects in a transportation district in Hampton roads.

Statement of Activities

The following table presents the revenues, expenses and change in net position of the Commission for the fiscal year ended June 30, 2021. Data for June 30, 2020 has been included for comparison purposes.

Summary of Changes in Net Position Years Ended June 30, 2021 and 2020

	Governmental Activities	
	2021	2020
Revenues:		
General revenue:		
Intergovernmental	\$ 256,638,358	\$ 201,213,437
Use of money	3,660,711	26,944,858
Total revenues	260,299,069	228,158,295
Expenses:		
General and administrative	911,959	762,708
Investment fees	249,038	821,267
Professional services	1,185,916	944,882
Cost of issuance	2,606,899	1,384,280
Interest expense	46,402,891	27,207,214
Project cost distributions	868,075,473	312,785,751
Total expenses	919,432,176	343,906,102
Change in net position	(659,133,107)	(115,747,807)
Net Position, beginning, as restated	377,786,585	493,534,392
Net Position, ending	\$ (281,346,522)	\$ 377,786,585

For the fiscal year ended June 30, 2021, revenues totaled approximately \$260.3 million. Expenses totaled approximately \$919.4 million. A discussion of the key components of the revenue and expense is included in the funds analysis.

FINANCIAL ANALYSIS OF THE REPORTING ENTITY'S FUNDS

Governmental Funds

As noted earlier, the Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Commission governmental funds is to provide information on near-term inflows, outflows, and balance of spendable resources. Such information is useful in assessing the needs of the Commission's financing requirements.

General Fund. The General Fund is the operating fund of the Commission. It is currently funded by transfers of investment earnings with any additional costs covered from the Special Revenue fund per legislative action HB1111 of the 2016 Acts of Assembly and shared pro rata with revenues of the HRRTF per legislative action HB 1726 and SB 1038 of the 2020 Acts of Assembly. Any investment income not required for General Fund use is retained in the Special Revenue funds.

Special Revenue Funds. The Commission established special revenue funds which are categorized as major funds in the governmental fund statements. These funds are used to report the intergovernmental revenue received from the Commonwealth of Virginia.

Capital Project Fund. The Commission established a capital project fund during fiscal year 2018 which is categorized as a major fund in the governmental fund statements. This fund is used to report bond issuance expense, bond issuance premium and project cost distributions.

Debt Service Fund. The Commission established a debt service fund during fiscal year 2019 which is categorized as a non-major fund in the governmental fund statements. This fund is used to report investment earnings and bond interest expense.

ECONOMIC FACTORS AND THE FISCAL YEAR 2022 BUDGET

- Hampton Roads is both a nationally and globally significant region. It is categorized as having abroad, diverse and stable regional economy. The region is the driver of economic activity for the Commonwealth of Virginia.
- The fiscal year 2022 budget is based on an analysis of trending revenues.
- The Commission’s General Fund, Special Revenue Fund, and Capital Project Fund operating budget will decrease from the amended budget of \$7,973,201 in fiscal year 2021 to \$6,746,539 in fiscal year 2022. This decrease of \$1,226,662 is due to bond issuance expenses and related financial advisor fees having been expensed in fiscal year 2021 for the upcoming issuance of additional debt.
- During fiscal year 2022, the Commission will continue to meet one of its principal statutory missions of providing congestion relief to its member localities. Its principal means of doing this will be carrying out its contractual commitments with respect to the Hampton Roads Bridge Tunnel project, a VDOT project development principally supported by the Commission (Commission project financing through HRTF Pay-Go and HRTF backed debt and HRTF backed loans, and a toll backed loan) in accordance with the Project Agreement for the Funding and Administration signed by VDOT and HRTAC on April 2, 2019 (the PAFA). This project will bring widespread reductions in congestion for citizens of the Hampton Roads region. Under the PAFA, the Commission is to provide \$3.553 billion in total financial commitments over fiscal years 2019 – 2026 for the HRBT project. The Commission has developed an approved financial plan that includes the sale of a Bond Anticipation Note backed by an HRTF supported TIFIA loan and a toll supported TIFIA loan during fiscal year 2022. Ongoing financial commitments by fiscal year are found in the notes to financial statements.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Commission’s finances for all those interested. If you have any questions about this report or need additional financial information, contact Kevin Page, Executive Director, Hampton Roads Transportation Accountability Commission, 723 Woodlake Drive, Chesapeake, Virginia, 23320, or by e-mail to kpage@hrtac.org.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

RECONCILIATION OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION June 30, 2021

	Governmental Funds
Reconciliation of fund balances on the Balance Sheet for the governmental funds to the net position of the governmental activities on the Statement of Net Position:	
Fund balances - governmental funds	\$ 1,466,806,167
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Deferred outflows of resources represent a consumption of net position that applies to a future period and, therefore, are not recognized as expenditures in the governmental funds until then.	
Pension plan	65,310
Pension asset	27,953
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental fund.	
Capital assets	\$ 8,773
Less - accumulated depreciation and amortization	<u>(8,773)</u>
	-
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.	
Bonds payable	(1,528,960,000)
Bond premiums	<u>(219,268,754)</u>
	(1,748,228,754)
Deferred inflows of resources represent an acquisition of net position that applies to a future period and, therefore, are not recognized in the governmental funds until then.	
Pension plan	<u>(17,198)</u>
Net position of governmental activities	<u>\$ (281,346,522)</u>

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGE IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2021

	Governmental Funds
Amounts reported for governmental activities in the Statement of Activities are different because:	
Net changes in fund balances - total governmental funds	\$ 65,768,844
Deferred outflows of resources:	
Pension plan contributions subsequent to measurement date	34,596
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Pension expense	(38,702)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense.	
Depreciation and amortization	(2,680)
The issuance of long-term debt (e.g. bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. The transaction, however, does not have any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Proceeds on issuance of new debt	(614,615,000)
Bond premium	(129,973,450)
Amortization of bond premiums	19,693,285
	<u>(724,895,165)</u>
Change in net position of governmental activities	<u>\$ (659,133,107)</u>

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

The financial statements of the Hampton Roads Transportation Accountability Commission (“the Commission”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The Governmental Accounting Standards Board (“GASB”) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

A. Reporting Entity

The Commission is an independent political subdivision of the Commonwealth of Virginia, created in 2014 by House Bill 1253 (HB1253) and Senate Bill 513 (SB513). The Commission has sovereign power, and its operations and resources are not subjected to the control, direction or oversight of the Commonwealth. The Commission member jurisdictions are the counties of Isle of Wight, James City, Southampton, and York and the cities of Chesapeake, Franklin, Hampton, Newport News, Norfolk, Poquoson, Portsmouth, Suffolk, Virginia Beach, and Williamsburg. The Commission has 23 members as follows: the chief elected official of each of the ten cities and a current elected official of each of the four counties that are members of the Commission; and, five members of the General Assembly (two senators and three delegates). The counties embraced by the Commission must appoint by resolution a current member from its governing body to serve as its member on the Commission. In addition, there are four non-voting ex-officio members, one each from the Virginia Department of Rail and Public Transportation, the Commonwealth Transportation Board, the Virginia Department of Transportation, and the Virginia Port Authority.

Currently, the Commission’s primary undertaking is to provide funding for regional transportation purposes in the Hampton Roads region. A significant part of this activity presently consists of allocating and leveraging funding from the Hampton Roads Transportation Fund (established by HB2313 of the 2013 Acts of Assembly and containing regional sales tax and use tax and motor fuel tax monies) to new construction projects on new or existing highways, bridges, and tunnels in member localities, with priority given to those projects that are expected to provide the greatest impact on reducing congestion for the greatest number of citizens residing within Planning District 23.

All moneys received by the Commission are required to be used solely for transportation purposes benefiting the member jurisdictions, as outlined above.

Although the Commission’s economic resources are not for the direct benefit of the Commonwealth and the Commonwealth is not obligated by the debt of the Commission, the Comptroller has determined that, based on the projects that the Commission is presently funding and its current relationship with the Virginia Department of Transportation relating to the delivery of those projects, it would be misleading to exclude the Commission from the Commonwealth’s audited financial statements. Thus, solely for financial reporting purposes, the Commonwealth has decided to include the Commission as a component unit of the Commonwealth. A separate report is prepared for the Commonwealth of Virginia, which includes all agencies, boards, commissions, and authorities determined to meet the component unit definition. Based on the Comptroller’s decision to treat the Commission as a blended component unit, the Commission is an integral part of the reporting entity of the Commonwealth of Virginia; accordingly, all funds of the Commission are included in the financial statements of the Commonwealth as part of the reporting entity.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information of the governmental activities supported by intergovernmental revenues.

The government-wide Statement of Net Position reports net position as restricted when externally imposed constraints are in effect. Internally imposed designations of resources are not presented as restricted net position.

The government-wide Statement of Activities is designed to report the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include contributions that are restricted to meet the operational requirements of a particular function.

Separate fund financial statements are provided for each of the governmental funds. In the fund financial statements, financial transactions and accounts of the Commission are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The governmental funds are reported on a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances (fund equity). Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the government-wide financial statements.

C. Measurement Focus and Basis of Accounting

Government-wide Financial Statements – Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Intergovernmental revenues, consisting of taxes from the Commonwealth of Virginia, are recognized in the period the funding is collected at the point of sale.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The Commission considers revenues to be available if they are collected within 75 days after year end. Expenditures are recorded when a liability is incurred under the full accrual method of accounting. The individual Government Funds are:

General Fund – The General Fund is the primary operating fund of the Commission and is used to account for and report all revenues and expenditures applicable to the general operations of the Commission which are not accounted for in other funds. Revenues are derived primarily from transfers from the Special Revenue Funds. The General Fund is considered a major fund for financial reporting purposes.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Special Revenue Funds – The Commission has two Special Revenue Funds. The Special Revenue Hampton Roads Transportation Fund (HRTF) and Special Revenue Hampton Roads Regional Transit Fund (HRRTF) account for and report the proceeds of specific revenue sources restricted or committed to expenditures for specified purposes. The Special Revenue Funds are considered major funds for financial reporting purposes.

Capital Projects Fund – The Capital Projects Fund accounts for and reports the proceeds from the Commission's debt issuances and the expenditures associated with these financial instruments. The Capital Projects Fund transfers money to the Special Revenue Funds to cover costs incurred within the Special Revenue Funds that are approved to be paid from the debt proceeds and not local revenue sources. The Commission has one Capital Projects Fund. The Capital Projects Fund is considered a major fund for financial reporting purposes.

Debt Service Fund – The Debt Service Fund accounts for and reports the financial resources that are restricted or committed for expenditures related to principal and interest obligations. The Debt Service Fund is considered a major fund for financial reporting purposes.

D. Budgeting

The Commission adopts an annual operating budget for the planning and administrative activities of the General Fund. The budgeting process enables the Commission to determine the annual transfers required from the Special Revenue Funds to fund its general and administrative activities. Accumulated fund balances in excess of anticipated minimum operating cash requirements are used as a revenue source in subsequent budgets.

E. Other Significant Accounting Policies

1. Cash and Cash Equivalents

Cash equivalents include all highly liquid investments with maturities of three months or less.

2. Restricted Cash, Cash Equivalents and Investments

Restricted cash, cash equivalents and investments as reported in the Statement of Net Position and Balance Sheets are comprised of intergovernmental deposits and unspent bond proceeds that shall be used solely for regional highways, bridges and tunnel transportation projects benefiting the member jurisdictions.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in the financial statements using the consumption method.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Other Significant Accounting Policies (Continued)

4. Capital Assets

Capital assets include property and equipment and computer hardware with an individual cost of more than \$5,000 and an estimated useful life in excess of one year. For constructed assets, all costs necessary to bring assets to the condition and location necessary for the intended use are capitalized. Repairs and maintenance are charged to operations as incurred. Additions and betterments are capitalized. The cost of assets retired and accumulated depreciation are removed from the accounts.

Depreciation and amortization of all exhaustible equipment, leasehold improvements and intangibles is charged as an expense against operations using the straight-line method over the following estimated useful lives:

<u>Asset Category</u>	<u>Useful Life (years)</u>
Office Furniture and Equipment	5
Automobiles	5

When, in the opinion of management, certain assets are impaired, any estimated decline in value is accounted for as a non-operating expense. There were no impaired assets as of June 30, 2021.

Funding of transportation capital projects: For projects approved and funded by the Commission, the Commission does not take ownership of such projects. Therefore, these projects are not reflected on the Commission's financial statements.

5. Pensions

The Virginia Retirement System (VRS) Political Subdivision Retirement Plan (the Commission's retirement plan) is a multi-employer, agent plan. For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Commission's retirement plan and the additions to/deductions from the Commission's retirement plan's fiduciary net position have been determined on the same basis as they were reported by the VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

6. Compensated Absences

The Commission's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from the Commission's service up to twice the annual earnings. The liability for such leave is reported as incurred in the government-wide statements. Vacation leave for Commission employees is granted to all full-time employees and is earned based upon the length of employment. The General Fund is responsible for paying the liability for compensated balances for employees. The Commission has elected not to record a liability for compensated balances for fiscal year 2021 due to the amount being immaterial.

Accumulated sick leave accrues until employees leave the Commission and will be paid out at 25% of the balance, up to limits established by policy, reflective of years employed.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Other Significant Accounting Policies (Continued)

7. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Interfund Transactions

Transactions among Commission funds are treated as revenues and expenditures or expenses within the funds involved if the transaction involved organizations external to the Commission government.

Transactions, which constitute reimbursements to a fund for expenditures initially made from it, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the reimbursed fund.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective funds' operating statements.

9. Fund Equity

The Commission reports fund balance in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable fund balance classification includes amounts that are not in spendable form (such as prepaid items) or are required to be maintained intact (corpus of a permanent fund).

Restricted fund balance classification includes amounts constrained to specific purposes by their providers (higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance classification includes amounts constrained to specific purposes by the government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Other Significant Accounting Policies (Continued)

9. Fund Equity (Continued)

Assigned fund balance classification includes amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official body to which the governing body delegates the authority.

Unassigned fund balance classification includes the residual balance of the General Fund that has not been restricted, committed or assigned to specific purposes within the General Fund.

When fund balance resources are available for a specific purpose in more than one classification, the Commission will consider the use of restricted, committed or assigned funds prior to the use of unassigned fund balance as they are needed.

10. Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Commission or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Commission first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

11. Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

12. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenditure) until then. The Commission currently has items that qualify for reporting in this category, and are described in detail in Note 7.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Other Significant Accounting Policies (Continued)

12. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The Commission currently has items which arise under the accrual basis of accounting, that qualify for reporting in this category, and are described in detail in Note 7.

13. Subsequent Events

Subsequent events have been evaluated through September 20, 2021, which was the date the financial statements were available to be issued.

Note 2. Deposits and Investments

At June 30, 2021, cash, cash equivalents and investments consisted of the following, at cost, which approximates fair value:

Governmental Activities

Cash	\$ 224,173,477
Local Government Investment Pool (LGIP)	566,423,909
US Bank	349,285,220
State Non-Arbitrage Pool (SNAP)	434,573,094
Union Bank	8,679,070
Total	<u><u>\$ 1,583,134,770</u></u>

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (SPDA), Section 2.2-4400 et seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and, depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or its agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes; bankers’ acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP).

The Commission has adopted a formal investment policy. The goal of the policy is to minimize risk and to ensure the availability of cash to meet Commission expenditures, while generating revenue from the use of funds which might otherwise remain idle. The primary objectives of the Commission’s investment activities in priority order are: safety, liquidity and yield. The policy specifies eligible and ineligible investments; diversification requirements; maximum length of time for various types of investments; and the process for purchasing securities.

Investment Policy

Investment	Credit Quality
U.S. Treasury Obligations	Bills, notes and any other obligation or securities issued by or backed by the full faith and credit of the United States Treasury. The final maturity shall not exceed a period of five years from the time of purchase.
Federal Agency/ Government Sponsored Enterprise Obligations	Bonds, notes and other obligations of the United States, and securities guaranteed by any federal government agency or instrumentality or government sponsored enterprise, with a rating of at least “AA” (or its equivalent) by at least two of the following Nationally Recognized Statistical Rating Organizations (NRSROs): Moody’s Investors Service, Inc. (“Moody’s”), Standard & Poor’s (“S&P”), or Fitch Ratings, Inc. (“Fitch”). The final maturity shall not exceed a period of five years from the time of purchase. Any investment in mortgage backed securities or collateralized mortgage obligations shall have a weighted average life that does not exceed five years from the time of purchase.
Municipal Obligations	Bonds, notes and other general obligations of the Commonwealth of Virginia and its agencies, authorities, and political subdivisions upon which there is no default, with a rating of at least AA (or its equivalent) by at least two of the following NRSROs: S&P, Moody’s, or Fitch, matures within three years of the date of purchase, and otherwise meets the requirements of <i>Code of Virginia</i> §2.2-4501.
Commercial Paper	“Prime quality” commercial paper, with a maturity of 270 days or less from the date of purchase, issued by domestic corporations (corporations organized and operating under the laws of the United States or any state thereof) provided that the issuing corporation, or its guarantor, has a short-term debt rating of at least two of the following: P-1 by Moody’s, A-1 by S&P, or F1 by Fitch, and that otherwise meets the requirements of <i>Code of Virginia</i> §2.2-4502.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Investment Policy (Continued)

Investment	Credit Quality
Bankers' Acceptance	Issued by domestic banks or a federally chartered office of a foreign bank, which are eligible for purchase by the Federal Reserve System with a maturity of 180 days or less. The issuing corporation, or its guarantor, must have a short-term debt rating from at least two of the following: P-1 by Moody's, A-1 by S&P, or F1 by Fitch.
Corporate Notes	High quality corporate notes with a final maturity from the time of purchase of five years or less and that meet the following requirements: a. notes with maturities of no more than three years from the time of purchase shall have received at least two of the following ratings: A by S&P, A by Moody's, or A by Fitch; b. notes with maturities no more than five years from the time of purchase shall have received at least two of the following ratings: AA by S&P, Aa by Moody's, or AA by Fitch.
Negotiable Certificates of Deposit and Bank Deposit Notes	Negotiable certificates of deposit and negotiable bank deposit notes of domestic banks and domestic offices of foreign banks that meet the following requirements: a. notes with maturities or no more than one year from the time of purchase shall have received at least two of the following ratings: A-1 by S&P, P-1 by Moody's, or F1 by Fitch; b. Notes with maturities exceeding one year and not exceeding five years from the time of purchase shall have received at least two of the following ratings: AA by S&P, Aa by Moody's, or AA by Fitch.
Bank Deposits and Non-Negotiable Certificates of Deposit	Demand deposits, time deposits, and other deposits that comply with all aspects of SPDA or with §2.2-4518 with a final maturity no more than two years.
Repurchase Agreement	In overnight repurchase agreements provided that the following conditions are met: a. the contract is fully secured by deliverable U.S. Treasury and Federal Agency/Government Sponsored Enterprise obligations as described in paragraphs 1 and 2 above, including the maximum maturity of three (3) years, having a market value at all times of at least one hundred and two percent (102%) of the amount of the contract; b. a Master Repurchase Agreement or specific written Repurchase Agreement governs the transaction; c. the securities are free and clear of any lien and held by an independent third party custodian acting solely as an agent for the Commission, provided such third party is not the seller under the repurchase agreement;

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Investment Policy (Continued)

Investment	Credit Quality
Virginia State Non-Arbitrage Program's (Virginia SNAP) SNAP Fund (continued)	The SNAP Fund is managed to maintain a dollar-weighted average portfolio maturity of 60 days or less and seeks to maintain a constant net asset value per share of \$1. The SNAP Fund invests in obligations of the United States Government and its agencies, high quality debt obligations of U.S. companies and obligations of financial institutions, and is rated "AAAm" by S&P. SNAP is managed in accordance with GASB Statement No. 79. The portfolio securities are valued by the amortized cost method, and on a daily basis this valuation is compared to current market to monitor any variance. Investments are limited to short-term, high quality credits that can be readily converted into cash with limited price variation.

Credit Risk

The investment policy specifies credit quality for certain types of investments, as described below, in accordance with the *Code of Virginia*, and the policy specifies the qualifications for institutions providing depository and investment services. In addition, the Executive Director must conduct a review of the condition of each authorized financial institution and broker/dealer.

As required by state statute, the Policy requires that commercial paper have a short-term debt rating of no less than "A-1" (or its equivalent) from at least two of the following; Moody's, S&P's and Fitch Investor's Service. Corporate notes, negotiable Certificates of Deposit and bank deposit notes maturing in less than one year must have a short-term debt rating of at least "A-1" by S&P's and "P-1" by Moody's. Notes having a maturity of greater than one year must be rated "AA" by S&P or "Aa" by Moody's.

The Commission's rated investments as of June 30, 2021 were rated by Standard & Poor's and the ratings are presented below.

	Commission's Rated Debt Investments' Values				
	Fair Quality Ratings				
	AAA	AAA	AA	A	A-1
Government Agencies	\$ -	\$ -	\$ 71,130,517	\$ -	\$ -

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Custodial Credit Risk (Deposits)

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, deposits may not be recovered. All of the Commission's deposits are maintained in accounts collateralized in accordance with the SPDA.

The Commission's investment policy provides that securities purchased for the Commission shall be held by the Commission or by the Commission's custodian. If held by a custodian, the securities must be in the Commission's name or in the custodian's nominee name and identifiable on the custodian's books as belonging to the Commission. Further, if held by a custodian, the custodian must be a third-party, not a counterparty (buyer or seller) to the transaction. At June 30, 2021, all of the Commission's investments were held in accordance with this policy.

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. If certain investments in any one issuer represent 5% of total investments, there must be a disclosure of the amount and issuer. At June 30, 2021, the Commission's portfolio did not have any investment in a single issuer over 5% that is required to be disclosed.

Interest Rate Risk

In accordance with its investment policy, the Commission manages its exposure to declines in fair values by limiting the maturity of various investment vehicles, as indicated in the chart below.

The limitations provided in the investment policy for maximum maturity and percentage of the portfolio for each category of investment are as follows:

Permitted Investment	Sector Limit	Issuer Limit
U.S. Treasury Obligations	100%	100%
Federal Agency/GSE Obligations	100%	35%
Municipal Obligations	15%	5%
Commercial Paper	35%	5%
Bankers' Acceptances	35%	5%
Corporate Notes	25%	5%
Negotiable Certificates of Deposit and Bank Deposit Notes	25%	5%
Bank Deposits and Non-Negotiable Certificates of Deposit	100%	100%
Repurchase Agreements	25%	25%
Money Market Mutual Funds	25%	25%
LGIP	100%	100%
Virginia SNAP-SNAP Fund (Proceeds of Tax Exempt Bonds Only)	100%	100%

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

Interest Rate Risk (Continued)

As a means of limiting exposure to fair value losses arising from interest rates, the Commission's policy limits investments to investments with a duration and/or weighted average maturity of the total investment portfolio not to exceed two years.

	Fair Value	Investment Maturities (in years)		
		Less Than 1 Year	1 - 5 Years	Over 5 Years
U.S. Treasury Obligations	\$ 102,895,171	\$ 37,328,831	\$ 65,566,340	\$ -
Foreign Government Bonds	14,294,411	4,039,812	10,254,599	-
Certificates of Deposit	50,470,427	46,411,170	4,059,257	-
Money Market	1,096,734	1,096,734	-	-
Corporate Notes	60,288,704	19,759,512	40,529,192	-
Commercial Paper	49,109,256	49,109,256	-	-
Government Agencies	71,130,517	18,061,017	45,840,166	7,229,334

As of June 30, 2021, the Commission had investments of \$566,423,909 in the LGIP for governmental activities. The LGIP is a professionally managed money market fund, which invests in qualifying obligations and securities as permitted by Virginia statutes. Pursuant to Section 2.2-4605 of the *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings. The Commission's investments in LGIP are stated at amortized cost and classified as cash and cash equivalents and the maturity is less than one year.

Note 3. Fair Value Measurement

The Commission categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The three levels of the fair value hierarchy are described below.

- Level 1** Valuation based on quoted prices in active markets for identical assets or liabilities.
- Level 2** Valuation based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets and liabilities.
- Level 3** Valuations based on unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of assets or liabilities.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 3. Fair Value Measurement (Continued)

The following table sets forth by level, within the fair value hierarchy, the Commission's assets at fair value as of June 30, 2021:

	June 30, 2021	Level 1	Level 2	Level 3
Investments by Fair Value Level				
U.S. Treasury Obligations	\$ 102,895,171	\$ 102,895,171	\$ -	\$ -
Government Agency (State Taxable)	71,130,517	-	71,130,517	-
Foreign Government Bonds	14,294,411	-	14,294,411	-
Corporate Notes	60,288,704	-	60,288,704	-
Commercial Paper	49,109,256	-	49,109,256	-
Certificates of Deposit	50,470,427	-	50,470,427	-
Money Market	1,096,734	1,096,734	-	-

Note 4. Due To/From Other Governments

At June 30, 2021, due from the Commonwealth of Virginia consisted of the following:

	Special Revenue HRTF	Special Revenue HRRTF	Total
Sales and Use Tax	\$ 33,894,584	\$ -	\$ 33,894,584
Motor Fuel Tax	14,509,649	-	14,509,649
Transient Occupancy Tax	-	1,471,691	1,471,691
Regional Transit Improvement Fees	-	799,011	799,011
Interest	8,177	428	8,605
Total	\$ 48,412,410	\$ 2,271,130	\$ 50,683,540

At June 30, 2021, amounts due to the Commonwealth of Virginia consisted of amounts due to the Virginia Department of Transportation.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 5. Long-Term Debt

Changes in long-term debt consist of the following:

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Governmental activities:					
Revenue bonds	\$ 914,345,000	\$ 614,615,000	\$ -	\$ 1,528,960,000	\$ -
Premium on bonds	108,988,589	129,973,450	19,693,285	219,268,754	-
	<u>\$1,023,333,589</u>	<u>\$ 744,588,450</u>	<u>\$ 19,693,285</u>	<u>\$ 1,748,228,754</u>	<u>\$ -</u>

Details of long-term obligations are as follows:

In 2018, the Commission issued \$500,000,000 in senior lien revenue bonds, Series 2018A, due in annual installments of \$4,745,000 to \$37,915,000, plus semi-annual interest at 5.0% to 5.5%. The bonds were issued at a premium of \$83,270,073, which will be amortized over the life of the bonds.

Annual requirements to amortize long-term obligations and related interest are as follows:

Year Ending June 30,	Governmental Activities	
	Senior Lien Revenue Bonds, Series 2018A	
	Principal	Interest
2022	\$ -	\$ 25,854,075
2023	-	25,854,075
2024	-	25,854,075
2025	-	25,854,075
2026	4,745,000	25,854,075
2027-2031	27,545,000	125,463,875
2032-2036	35,155,000	117,854,125
2037-2041	44,865,000	108,141,375
2042-2046	57,255,000	95,746,625
2047-2051	102,710,000	78,494,375
2052-2056	153,870,000	46,134,625
2057-2058	73,855,000	6,147,350
	<u>\$ 500,000,000</u>	<u>\$ 707,252,725</u>

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 5. Long-Term Debt (Continued)

In 2019, the Commission issued \$414,345,000 in intermediate lien revenue bonds, Series 2019A, due in full on July 1, 2023, plus semi-annual interest at 5.0%. The bonds were issued at a premium of \$34,488,507, which will be amortized over the life of the bonds.

Annual requirements to amortize long-term obligations and related interest are as follows:

Year Ending June 30,	Governmental Activities	
	Intermediate Lien Revenue Bonds, Series 2019A	
	Principal	Interest
2022	\$ -	\$ 20,717,250
2023	414,345,000	10,358,625
	<u>\$ 414,345,000</u>	<u>\$ 31,075,875</u>

In 2020, the Commission issued \$614,615,000 in senior lien revenue bonds, Series 2020A, due in annual installments of \$8,185,000 to \$63,965,000, plus semi-annual interest at 4.5% to 5.8%. The bonds were issued at a premium of \$129,973,450, which will be amortized over the life of the bonds.

Annual requirements to amortize long-term obligations and related interest are as follows:

Year Ending June 30,	Governmental Activities	
	Senior Lien Revenue Bonds, Series 2020A	
	Principal	Interest
2022	\$ -	\$ 28,228,700
2023	-	28,228,700
2024	-	28,228,700
2025	-	28,228,700
2026	-	28,228,700
2027-2031	35,280,000	137,723,000
2032-2036	54,975,000	125,719,375
2037-2041	69,340,000	111,210,700
2042-2046	86,020,000	94,156,300
2047-2051	77,555,000	74,556,875
2052-2056	74,085,000	59,510,000
2057-2061	217,360,000	32,533,550

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 6. Intergovernmental Revenues, Commonwealth of Virginia

Intergovernmental revenues from the Commonwealth of Virginia include additional fees or taxes imposed in each of the Member Jurisdictions as follows:

Special Revenue HRTF:

- An additional Retail Sales Tax of 0.7% is added to the standard rate of retail sales tax imposed by the Virginia Code. The additional tax is not levied upon food purchased for human consumption.
- An additional Motor Fuel Tax at a rate of 2.1% on retail sales of motor vehicle fuel levied by the Commonwealth of Virginia through its Department of Motor Vehicles.

Special Revenue HRRTF:

- An additional Distribution of recordation tax to cities and counties annual allocation of \$20 million into the HRRTF established pursuant to § 33.2-2600.1.
- A Regional Transportation Improvement Fee imposed on each deed, instrument, or writing by which lands, tenements, or other realty located in a county or city located in a transportation district in Hampton Roads (Currently the Cities of Chesapeake, Hampton, Newport News, Norfolk, Portsmouth, and Virginia Beach) created pursuant to § 33.2-1903 is sold and is granted, assigned, transferred, or otherwise conveyed to or vested in the purchaser or any other person, by such purchaser's direction. The rate of the fee, when the consideration or value of the interest, whichever is greater, equals or exceeds \$100, shall be \$0.06 for each \$100 or fraction thereof, exclusive of the value of any lien or encumbrance remaining thereon at the time of the sale, whether such lien is assumed or the realty is sold subject to such lien or encumbrance.
- A Transportation District Transient Occupancy Tax, an additional transient occupancy tax at the rate of one percent of the amount of the charge for the occupancy of any room or space occupied in any county or city located in a transportation district in Hampton Roads (Currently the Cities of Chesapeake, Hampton, Newport News, Norfolk, Portsmouth, and Virginia Beach.) created pursuant to § 33.2-1903. *Delayed enactment date of May 1, 2021.*

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent Multiple-Employer Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of the Commission are automatically covered by VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, service credit and average final compensation at retirement using a formula.	About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, service credit and average final compensation at retirement using a formula.	About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. <ul style="list-style-type: none">• The defined benefit is based on a member's age, service credit and average final compensation at retirement using a formula.• The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.

A. Plan Description (Continued)

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of service credit. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.</p> <p>Members are always 100% vested in the contributions they make.</p>	<p>Vesting Same as Plan 1.</p>	<p>Vesting <i>Defined Benefit Component:</i> Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of service credit. Plan 1 or Plan 2 members with at least five years (60 months) of service credit who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.</p> <p><i>Defined Contribution Component:</i> Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.</p> <p>Members are always 100% vested in the contributions they make.</p> <p>Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.</p> <ul style="list-style-type: none">• After two years, a member is 50% vested and may withdraw 50% of employer contributions.• After three years, a member is 75% vested and may withdraw 75% of employer contributions.• After four or more years, a member is 100% vested and may withdraw 100% of employer contributions. <p>Distributions not required, except as governed by law.</p>

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan (Continued)

A. Plan Description (Continued)

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Calculating the Benefit The basic benefit is determined using the average final compensation, service credit and plan multiplier. An early retirement reduction factor is applied to this amount if the member is retiring with a reduced benefit. In cases where the member has elected an optional form of retirement payment, an option factor specific to the option chosen is then applied.</p>	<p>Calculating the Benefit See definition under Plan 1.</p>	<p>Calculating the Benefit <i>Defined Benefit Component:</i> See definition under Plan 1.</p> <p><i>Defined Contribution Component:</i> The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.</p>
<p>Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.</p>	<p>Average Final Compensation A member's average final compensation is the average of the 60 consecutive months of highest compensation as a covered employee.</p>	<p>Average Final Compensation Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.</p>
<p>Service Retirement Multiplier <i>VRS:</i> The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%.</p>	<p>Service Retirement Multiplier <i>VRS:</i> Same as Plan 1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members, the retirement multiplier is 1.65% for service credit earned, purchased or granted on or after January 1, 2013.</p>	<p>Service Retirement Multiplier <i>Defined Benefit Component:</i> <i>VRS:</i> The retirement multiplier for the defined benefit component is 1.0%.</p> <p>For members that opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.</p>

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

Active Members

2

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan (Continued)

A. Plan Description (Continued)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5% of their compensation toward their retirement.

The Commission's contractually required contribution rate for the year ended June 30, 2021 was 13.72% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Commission were \$34,596 and \$45,199 for the years ended June 30, 2021 and 2020, respectively.

B. Net Pension Asset

The net pension asset is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The Commission's net pension asset was measured as of June 30, 2020. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation performed as of June 30, 2019, rolled forward to the measurement date of June 30, 2020.

Actuarial Assumptions

The total pension liability for the Commission's retirement plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation	2.50 percent
Salary increases, including inflation	3.50 percent – 5.35 percent
Investment rate or return	6.75 percent, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan (Continued)

B. Net Pension Asset (Continued)

Actuarial Assumptions (Continued)

Mortality Rates:	15% of deaths are assumed to be service related.
– Pre-retirement:	RP-2014 Employee Rates at age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.
– Post-retirement:	RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.
– Post-disablement:	RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through nine years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increase rate from 14% to 15%
Discount Rate	Decrease rate from 7.00% to 6.75%

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan (Continued)

B. Net Pension Asset (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation is best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return*
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi-Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
Total	100.00%		4.64%
	Inflation		2.50%
	* Expected arithmetic nominal return		7.14%

* The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations, provide a median return of 6.81%.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan (Continued)

B. Net Pension Asset (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2020, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017 actuarial valuations, whichever was greater. From July 1, 2020 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

C. Changes in the Net Pension Liability (Asset)

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability (Asset)
Balances at June 30, 2019	\$ 171,338	\$ 193,983	\$ (22,645)
Changes for the year:			
Service cost	54,309	-	54,309
Interest	11,565	-	11,565
Differences between expected and actual experience	(5,528)	-	(5,528)
Contributions - employer	-	45,199	(45,199)
Contributions - employee	-	16,437	(16,437)
Net investment income	-	4,103	(4,103)
Administrative expense	-	(79)	79
Other changes	-	(6)	6
Net changes	60,346	65,654	(5,308)
Balances at June 30, 2020	\$ 231,684	\$ 259,637	\$ (27,953)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following represents the net pension liability (asset) calculated using the stated discount rate, as well as what the net pension liability (asset) would be if it were calculated using a stated discount rate that is one-percentage point lower (5.75%) or one-percentage-point higher (7.75%) than the current rate:

	1% Decrease 5.75%	Current Discount Rate 6.75%	1% Increase 7.75%
Plan's net pension liability (asset)	\$ 2,280	\$ (27,953)	\$ (53,170)

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 7. Pension Plan (Continued)

D. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the Commission recognized pension expense of (\$38,702). At June 30, 2021, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Employer contributions subsequent to the measurement date	\$ 34,596	\$ -
Differences between expected and actual experience	18,581	14,731
Changes of assumptions	3,864	2,467
Net difference between projected and actual earnings on plan investments	8,269	-
	<u>\$ 65,310</u>	<u>\$ 17,198</u>

The \$34,596 reported as deferred outflows of resources related to pensions resulting from the Commission's contributions subsequent to the measurement date will be recognized as a decrease to the net pension liability in the year ending June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions as of June 30, 2021 will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2022	\$ 4,300
2023	4,789
2024	4,747
2025	3,211
2026	(1,810)
Thereafter	(1,721)
Total	<u><u>\$ 13,516</u></u>

E. Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, Virginia 23218-2500.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 8. Operating Leases and Agreements

Governmental Activities

The Commission leases office space under a 36-month agreement, which commenced on November 9, 2015 and expired November 30, 2018. The lease provides an additional option to renew for two additional terms of one year at which time annual rent will be increased to an amount equal to 105% of the annual rent in effect. The Commission exercised their second option to renew their lease for an additional year, which expires on November 30, 2020. During the year ended June 30, 2021, the Commission amended the lease agreement to extend the lease term for an additional year, which expired on November 30, 2021. The current lease terms call for the Commission to pay \$1,292 monthly (\$15,504 annually). Rent expense for Governmental Activities as reported in the government-wide financial statements totaled \$14,101.

As of June 30, 2021, the future minimum long-term lease commitments were as shown below:

<u>Year Ending June 30,</u>	<u>Amount</u>
2022	<u>\$ 6,460</u>

Note 9. Interfund Transfers

Transfers from the Special Revenue Funds to the General Fund are for general administration. Transfers from the Capital Projects Fund to the Special Revenue Funds were made to cover the costs of capital projects incurred by the Special Revenue Funds. Transfers from the Special Revenue Funds to the Debt Service Fund were made to cover debt service requirements.

Note 10. Risk Management

The Commission is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by insurance purchased from Virginia Risk Sharing Association Insurance Programs, a group insurance pool in the Commonwealth of Virginia. There have been no significant reductions in insurance coverage from the prior year, and settled claims have not exceeded insurance coverage for the past three years.

Note 11. Pending GASB Statement

At June 30, 2021, the Governmental Accounting Standards Board (GASB) had issued a statement not yet implemented by the Commission. The statement which might impact the Commission is as follows:

GASB Statement No. 87, *Leases*, will increase the usefulness of the Commission's financial statements by requiring reporting of certain lease assets and liabilities and deferred inflows of resources for leases that previously were classified as operating leases. Statement No. 87 will be effective for fiscal years beginning after June 15, 2021.

Management has not yet determined the effect this statement will have on its financial statements.

HAMPTON ROADS TRANSPORTATION ACCOUNTABILITY COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 12. Development and Delivery of Congestion Relief Projects – Project Agreements with VDOT

The Commission has entered into Standard Project Agreements with the Virginia Department of Transportation (VDOT) for its pre-HRBT projects, and a Project Administration and Funding Agreement with VDOT for the HRBT Expansion Project, both of which relate to the Commission's funding of approved projects that will be part of VDOT's statewide transportation system. To date, all of the Commission's projects are included in the statewide transportation system. Under certain Project Agreements, the Commonwealth Transportation Board has agreed to also contribute state funds to the construction of Commission projects. Under all Project Agreements to date, VDOT has agreed to provide administration of project construction as reimbursed by the Commission, and VDOT has assumed responsibility for operation and maintenance of the projects at no cost to the Commission. The Commission's funding obligation under each of these agreements is limited to the amounts budgeted. If VDOT determines it may incur additional, unbudgeted costs, such as to cover cost overruns, the Commission has the option to provide additional funding, cancel the project or a portion thereof, or authorize VDOT to make modifications or reductions in scope or design to stay within the initial budget under the applicable Standard Project Agreement. Based on the projects the Commission is presently funding, all capital assets constructed are reported as Commonwealth assets by the VDOT.

The Commission's executed Standard Project Agreements, PAFA for HRBT, and funding shares looking forward are described below. In the administration of its financing plan, the Commission will continue to allocate funds to such projects and others, and such contributions will be made either from Bond proceeds or other available funds.

Commission Projects Under Agreements with VDOT (in Millions)

	2022	2023	2024	2025	2026	Total
(Mega Project) Delivery of HRBT Expansion Project	\$ 714	\$ 546	\$ 421	\$ 291	\$ 11	\$ 1,983

Note 13. Risk and Uncertainties

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Commission operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Commission.

VIRGINIA RETIREMENT SYSTEM

Year Ended June 30, 2021

Note 1. Changes of Benefit Terms

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Note 2. Changes of Assumptions

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through nine years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increase rate from 14% to 15%
Discount Rate	Decreased 7.00% to 6.75%

COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Commission Board Members
Hampton Roads Transportation Accountability Commission

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities and each major fund of the Hampton Roads Transportation Accountability Commission (Commission), a component unit of the Commonwealth of Virginia, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated September 20, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
